GERALD LEWIS
COMPTROLLER OF FLORIDA

December 15, 1984

The Honorable D. Robert Graham
Governor
State of Florida
Tallahassee, Florida 32301

Dear Governor Graham:

Enclosed is the Annual Report of the Comptroller for the fiscal year ended June 30, 1984. This report was prepared on a cash basis from accounting records maintained by the Comptroller's Office and other State agencies and does not include Financial Statements for the State of Florida. Financial statements for the 1983-84 fiscal year will be prepared and issued under separate cover.

Sincerely,

Gerald Lewis

GERALD LEWIS

Enclosure

FOREWORD

Section 215.32, Florida Statutes, provides that financial operations of the State of Florida covering all receipts and expenditures be maintained through the use of four funds, namely:

General Revenue—

(a) The General Revenue Fund shall consist of all moneys received by the State from every source whatsoever, except as provided in paragraphs (b) and (c). Said moneys shall be expended pursuant to general revenue fund appropriations acts or transferred as provided in paragraph (c).

Trust—

(b) 1. The trust funds shall consist of moneys received by the state which under law or under trust agreement are segregated for a purpose authorized by law. The Administration Commission of the Department of Administration shall have the power and authority to approve the establishment of any trust fund it deems necessary to preserve the integrity of any moneys received or collected by a state agency for a specific use of purpose authorized by law. The state agency, receiving or collecting such moneys shall be responsible for their proper expenditure as provided by law.

Working Capital—

(c) The Working Capital Fund shall consist of an amount not more than ten percent of the amount of net revenue of the general revenue fund for the preceding fiscal year, which accrues from moneys in the general revenue fund which are in excess of the amount needed to meet the general revenue fund appropriations acts, as determined by the Executive Office of the Governor. Said moneys are hereby appropriated for transfer to the general revenue fund whenever it is determined by the Administration Commission that revenue collections in the general revenue fund will be less than the estimated amount recommended to the Legislature by the Executive Office of the Governor during the same fiscal year and when the Administration Commission determines, after consultation with the legislative appropriations committees, that it would be more prudent to transfer the Working Capital Funds than to reduce agency operating budgets pursuant to Section 216.221. When not required to meet general revenue fund appropriations, said moneys shall be used as a revolving fund for transfers as provided by Section 215.18, and when the Comptroller determines that said moneys are not needed for either type of transfer, they may be temporarily invested as provided in Sections 215.44-215.53.

Federal Revenue Sharing—

(d) The Federal Revenue Sharing Fund shall consist of all moneys received by the state from any Federal Revenue Sharing Act. Said funds shall be expended pursuant to appropriation acts or as otherwise provided for by law.

Unless otherwise provided by law, the disbursement of moneys from all four funds will, in accordance with Chapter 216, Florida Statutes, be subject to approval of the Administration Commission, Executive Office of the Governor. The Administration Commission is composed of the Governor, Comptroller, Treasurer, Attorney General, Secretary of State, Commissioner of Agriculture, and Commissioner of Education.

Chapter 17, Florida Statutes, provides the Comptroller shall, as the State's disbursing officer:

"examine, audit, adjust and settle the accounts of all the officers of this state," and "may prescribe the forms of all papers, vouchers, reports, and returns, and the manner of keeping the accounts and papers to be used by the officers of this state." The comptroller shall also "erase from any original account all items disallowed by him."

As provided by Section 215.01, Florida Statutes, for a fiscal year beginning on the first day of July and ending on the thirtieth day of June the following year, all exhibits, schedules or statements shown in this report cover the period July 1, 1983 to June 30, 1984 unless otherwise indicated.

Additional information on financial requirements insofar as receipts, disbursements, or any transaction affecting a State account are concerned may be obtained from Chapter 3A, Florida Administrative Code.

GERALD LEWIS
COMPTROLLER OF FLORIDA

February 6, 1985

The Honorable D. Robert Graham
Governor
State of Florida
The Capitol
Tallahassee, Florida 32301

Dear Governor Graham:

Enclosed are General Purpose Financial Statements for the State of Florida for the fiscal year ended June 30, 1984. The statements were prepared in accordance with generally accepted accounting principles by my professional accounting staff. These financial statements have been audited by the State Auditor General and his opinion is included herein.

Completion of these financial statements is the result of a three year effort by my office to develop a work product which makes possible a fair presentation of the State's financial position, and the results of its operations. I gratefully acknowledge the assistance provided by the accounting staffs of all State agencies in this task.

I would also like to acknowledge the support of the Florida Legislature. Without their support over the past years, the State of Florida Accounting System (SAMAS), which was an essential element in the accumulation of the data included in this report, would not be a reality and the completion of this effort would not have been possible.

Sincerely,

Gerald Lewis

STATE OF FLORIDA
OFFICE OF THE AUDITOR GENERAL
TALLAHASSEE

ERNEST ELLISON, C. P. A.
AUDITOR GENERAL

February 6, 1985

The President of the Senate, the Speaker of the
House of Representatives, and the
Legislative Auditing Committee

We have examined the combined financial statements of the State of Florida as of and for the fiscal year ended June 30, 1984, as listed in the table of contents of this report. Except as disclosed in the following paragraphs, our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances. We did not examine the financial statements of the Legislature, which include total assets and expenditures constituting less than one percent respectively of the amounts reported for the funds and account groups affected. Also, we did not examine the financial statements of the Florida Housing Finance Agency (an Enterprise Fund), which include total assets and revenues constituting 33 percent and 27 percent, respectively, of the related totals of the Enterprise Funds, or the financial statements of university "direct support" organizations as described in note 19 to the financial statements. These statements, which are the basis for amounts included in this report, were examined by other auditors whose reports thereon have been furnished to us, and our opinion expressed herein, insofar as it relates to the amounts reported, is based solely upon the reports of the other auditors.

Our examination of fixed asset records supporting the amounts reported disclosed that the cost or, in the case of donated property, the fair market value at the date of acquisition of a substantial amount of uplands and the values of all of the submerged lands are not included in the General Fixed Assets Account Group. The acreage of the submerged lands and its related value was not practicably determinable. As a result, it was not practicable to determine whether amounts reported for general fixed assets on exhibit A are fairly presented.

The combined financial statements prepared for the previous year represented compilations of individual departmental statements. However, adjustments were not made to present the combined financial statements of the prior year in accordance with generally accepted accounting principles. The accompanying financial statements have been prepared using the fund classifications established by the National Council on Governmental Accounting as a guide. Although appropriate adjustments, as described in note 16, have been made to the beginning fund equity accounts reported in the accompanying financial statements, it was not practicable to determine what adjustments would be necessary to present the financial statements of the preceding year in conformity with the accounting principles used in the current year.

In our opinion, based upon our examination and the reports of other auditors, the combined financial statements referred to above, except for those relating to the General Fixed Assets Account Group, present fairly the financial position of the State of Florida at June 30, 1984, and the results of its operations, the changes in fund balances for institutions of the State's university system, and the changes in financial position of its proprietary fund types and similar trust funds for the fiscal year then ended, in conformity with generally accepted accounting principles. For the reasons stated above, we do not express an opinion on the General Fixed Assets Account Group at June 30, 1984.

Respectfully yours,

Ernest Ellison

Ernest Ellison, C.P.A.

STATE OF FLORIDA
NOTES TO FINANCIAL STATEMENTS
June 30, 1984

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following summary of Florida's significant accounting policies is presented to assist the reader in interpreting the financial statements. These policies should be viewed as an integral part of the accompanying financial statements.

A. Introduction

The Territory of Florida was acquired by treaty from Spain in 1821 and was admitted to the Union as a state on March 3, 1845. The capital city, Tallahassee, is located in the northwest portion of the State. Florida encompasses an area of 58,560 square miles, and its general coastline is 1,200 miles in length.

The "Sunshine State" is divided into 67 counties having a population estimated to be 10.6 million in April 1983, representing a 9 percent increase over the population of 9.7 million reported by the 1980 Federal Census when Florida ranked seventh among the states in population. The powers of government are divided among the Legislature, consisting of an elected Senate and House of Representatives; an elected Judiciary; and the Executive branch, consisting of an elected Governor and Lieutenant Governor and a six-member elected Cabinet. The Cabinet is comprised of the Secretary of State, the Attorney General, the Comptroller, the Treasurer, the Commissioner of Agriculture, and the Commissioner of Education.

B. Reporting Entity

The State of Florida reporting entity consists of the State's Legislative agencies, the Governor and Cabinet and the State departments, commissions, and boards of the Executive branch, the various offices relating to the Judicial branch of State government, and various transportation facilities operated by the Florida Department of Transportation.

EXHIBIT - H
(Continued)

Criteria for defining the reporting entity, identified and described in National Council on Governmental Accounting (NCGA) Statement 3, were considered in identifying the units of government comprising the State reporting entity. These criteria, relating to the manifestation of oversight responsibility and to the scope of public service, were used to evaluate potential State reporting entity component units.

These evaluations resulted in positive responses to the criteria regarding oversight of the 28 State-supported community colleges located throughout the State. However, in the judgment of management, the exclusion of these potential component units from the State reporting entity is necessary to properly depict the State's placement of operational responsibility for these functions at the local level. For purposes of fiscal accountability and financial reporting, these entities are considered to be independent districts.

C. Basis of Presentation

The State's financial statements have been prepared in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

The financial position of the State University System is presented on the Combined Balance Sheet - All Fund Types and Account Groups in a separate column in recognition that the accounting principles applied to the State University System fund types differ materially from those applied to the State's other fund types and account groups.

The State University System accompanying Consolidated Statement of Changes in Fund Balances and the accompanying Consolidated Statement of Current Funds Revenues, Expenditures, and Other Changes follow a form recommended by the National Association of College and University Business Officers (NACUBO) and the American Institute of Certified Public Accountants (AICPA). The State University System Consolidated Statement of Current Funds Revenues, Expenditures, and Other Changes is a statement of financial activities of current funds related to the current reporting period. This statement does not purport to present the results of operations or the net income or loss for the period as would a statement of income or a statement of revenues and expenses.

Several nonprofit organizations operate for or on behalf of the State University System, but inasmuch as they are

EXHIBIT - H
(Continued)

separate legal entities, they are not component units of the State reporting entity. Accordingly, financial statements of the State University System do not include statements of financial position or results of operations for these organizations. Combined financial information summarized from the financial statements of these nonprofit organizations is shown separately in note 19.

Separate nonprofit corporations are established to account for professional fees generated by physicians and dentists engaged in the private practice of medicine at the University of Florida and the University of South Florida. The State University System financial statements do not include the professional fee clearing funds established to account for professional fees.

Total columns on the accompanying combined financial statements are captioned "Memorandum Only" because they are presented only to facilitate financial analyses. Inasmuch as the total columns include fund types and account groups that use different bases of accounting, include both restricted and unrestricted amounts, and include interfund transactions that have not been eliminated, data in the total columns are not intended to present financial position, results of operations, or changes in financial position in conformity with generally accepted accounting principles. Neither are such data comparable to a consolidation.

D. Fund Accounting

The State of Florida's accounting systems are organized on the basis of funds and account groups. A fund is an accounting entity having a self-balancing set of accounts for recording assets, liabilities, fund equity, revenues, either expenditures or expenses depending on fund type, and other financing sources and uses.

Governmental fund types, proprietary fund types, fiduciary fund types, and account groups are used to record transactions relating to all State activities, except those pertaining to the State University System. State University System transactions are recorded in State University System fund types. The several funds and account groups are described below:

NOTES TO FINANCIAL STATEMENTS

GOVERNMENTAL FUND TYPES

General Fund - The General Fund is the principal fund used to account for general governmental activities of Florida. All financial transactions not required to be accounted for in other funds are accounted for in the General Fund.

Special Revenue Funds - Special Revenue Funds are used to account for revenues which are legally restricted to expenditures for specific purposes. Principal sources of legally restricted revenues are motor fuel taxes and Federal grants.

Capital Projects Funds - Capital Projects Funds are used to account for resources used for the acquisition or construction of major facilities other than those financed from the General Fund, Special Revenue Funds, Enterprise Funds, Internal Service Funds, Trust Funds, or University Funds.

Debt Service Funds - Debt Service Funds are used to account for resources earmarked to pay principal, interest, and service charges on general long-term debt.

PROPRIETARY FUND TYPES

Enterprise Funds - Enterprise Funds are used to account for activities that are financed and operated in a manner similar to private business enterprises: (1) where the costs of providing goods or services to the general public on a continuing basis are to be financed or recovered through user charges or (2) where the periodic determination of revenues earned, expenses incurred and/or net income is appropriate. Certain segment information relative to Enterprise Funds is presented in note 17.

Internal Service Funds - Internal Service Funds are used to account for the financing of goods or services provided on a continuing basis by one department to other departments or other governmental units on a cost-reimbursement basis.

FIDUCIARY FUND TYPES

Fiduciary Funds consist of Trust Funds and Agency Funds which are used to account for financial resources held or administered by Florida in a trustee capacity or as an agent for individuals, private organizations, other governmental units, or other funds. Each Trust Fund is classified for accounting purposes as either a governmental fund type or a proprietary fund type. Thus, Expendable Trust Funds are accounted for in the same manner as governmental funds and Nonexpendable Trust Funds and Pension Trust Funds are accounted for in the same manner as proprietary funds. Agency Funds are purely custodial in nature, that is, all assets are held for others; accordingly, assets equal liabilities and their accounting does not involve measurement of results of operations.

ACCOUNT GROUPS

The General Fixed Assets Account Group is used to establish accounting control for general fixed assets. General fixed assets are usually acquired with resources of governmental fund types and used in association with governmental fund activities.

The General Long-Term Debt Account Group is used to establish accounting control for long-term debts and other long-term obligations of governmental fund types. Long-term obligations of funds using proprietary fund accounting are reported as liabilities in those funds rather than in the General Long-Term Debt Account Group.

Neither of the account groups are funds. They consist of self-balancing sets of accounts and are used only to establish accounting control over general fixed assets and general long-term obligations. Account groups are not used to account for available resources or the actual acquisition of fixed assets or payment of liabilities.

STATE UNIVERSITY SYSTEM FUND TYPES

Current Funds - Current Funds are used to account for those economic resources which are expendable for operational purposes in performing the primary objectives of the State University System. Resources restricted by donors or other outside agencies for specific current operating purposes are reported as Restricted Current Funds; resources not so restricted are reported as Unrestricted Current Funds.

Loan Funds - Loan Funds are used to account for resources available for loans to students. The terms of the loan agreements with donors usually specify that the money be used on a revolving basis, that is, repayments of principal and interest by a student borrower are restored to the fund and loaned to other students.

Endowment Funds - Endowment Funds are used to account for gifts which the donors or outside agencies have stipulated, as a condition of the gift, that the principal is to be maintained inviolate in perpetuity and invested for the purpose of producing income. The income from these investments is reported in the fund for which it is to be used.

Unexpended Plant Funds - Unexpended Plant Funds are used to account for resources received from various sources to finance the acquisition of long-lasting plant assets and liabilities associated with those resources.

Renewal and Replacement Plant Funds - Renewal and Replacement Plant Funds are used to account for resources used to provide for the renewal and replacement of Plant Fund assets as distinguished from resources used for additions and improvements to plant.

Retirement of Indebtedness Funds - Retirement of Indebtedness Funds are used to account for the accumulation of resources to be used for payment of principal and interest and other debt service charges, including contributions for sinking funds, relating to Plant Fund indebtedness.

Investment in Plant Fund - The Investment in Plant Fund is used to account for all long-lasting assets and their associated liabilities used in activities of the State University System except for the long-lasting assets accounted for as investments in Endowment Funds.

Agency Funds - The Agency Funds are used to account for and report funds held by the institutions of the State University System as custodian or fiscal agent for others.

E. Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

All governmental fund types and Expendable Trust Funds are accounted for using the modified accrual basis of accounting. Their revenues, except for certain grant revenues, are recognized when they become measurable and available as net current assets. When grant terms provide that the expenditure of funds is the prime factor for determining eligibility for grant funds, revenue is recognized at the time the expenditure is made.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Exceptions to this general rule include: (1) prepaid expenses generally are not recorded in governmental funds; and (2) principal and interest on general long-term debt are recognized when due.

All proprietary fund types, university fund types, and Nonexpendable Trust Funds and Pension Trust Funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when incurred. Exceptions to this general rule include: (1) premiums and discounts on bonds sold may not be recorded and amortized; (2) revenue and faculty salaries of State University System summer sessions are reported in the fiscal year in which the academic session predominately falls; and (3) revenue is recognized in University Restricted Current Funds when expenditures are made for current operating purposes.

To the extent that University current funds are used to finance asset acquisitions, the amounts so provided are accounted for as: (1) expenditures, in the case of normal replacement of movable equipment and library books; (2) mandatory transfers, in the case of required provisions for debt amortization, interest, and equipment renewal and replacement; and (3) transfers of a nonmandatory nature for all other cases.

F. Budget Basis Accounting

The State of Florida follows these procedures in the adoption, amendment, and reporting of budgets and budgetary data.

As provided by Chapter 216, Florida Statutes, each State agency biennially submits a Legislative budget request to the Legislature and to the Executive Office of the Governor. At least 45 days before the scheduled annual Legislative session in each odd-numbered year, the Governor furnishes each senator and representative a copy of his recommended budget for the State. The Governor's recommended budget is referenced to the budget requests of the individual agencies and is separated into two sections respectively entitled "Operations" and "Fixed Capital Outlay."

The Governor also provides estimates of revenues for the General Revenue Fund and for trust funds (the legal basis funds for activities not financed from General Revenue appropriations) of the State. By law, the estimated revenues shall be sufficient to fund recommended appropriations. Such revenue estimates include:

- An estimate of revenues from current revenue sources during the current biennium and during the next biennium;
- An estimate of the effect of recommended changes in revenue sources on revenues from current sources;
- The national and State economic assumptions used in developing the estimates; and
- A delineation of revenues from all sources, which delineation identifies those revenues which are recurring and those which are nonrecurring.

Florida law provides for the Governor's estimates of revenue to be prepared on the basis of legal funds as prescribed in Section 215.32, Florida Statutes, rather than fund types prescribed by generally accepted accounting principles; however, State agencies are required to maintain accounting records providing data for financial statement preparation in accordance with generally accepted accounting principles. Accordingly, budgetary comparisons of authorized and actual expenditures presented on exhibit C have been grouped by fund type, as prescribed by generally accepted

EXHIBIT - H
(Continued)

STATE OF FLORIDA
NOTES TO FINANCIAL STATEMENTS
June 30, 1984

accounting principles, and the budgeted revenues reported represent revenues required to fund authorized expenditures rather than estimates of gross revenues accruing to those funds.

Although specific revenue estimates are not available for the fund types presented on exhibit C, the Florida Consensus Estimating Conference, a group of State officers and employees including the professional staffs of the Governor's Office, the Legislature, and certain other executive agencies, estimated that amounts available for General Revenue Fund appropriation during the 1983-84 fiscal year would total $5,851,900,000 as shown in the following tabulation (in thousands):

Balance Forward from Fiscal Year 1982-83	$ 121,000
Estimated Revenues	5,727,800
Working Capital Fund Interest	2,900
Cancellation of Warrants	200
Total Fiscal Year 1983-84 General Revenue Funds Available	$5,851,900

The General Appropriations Act and supporting Statement of Intent and any other acts containing appropriations are considered the original approved operating budgets for operational and fixed capital outlay expenditures. The Executive Office of the Governor may amend the original approved operating budgets in the manner and to the extent authorized by law. The Comptroller authorizes expenditures to be made on the basis of appropriation releases as authorized by the Executive Office of the Governor. All appropriations are considered to be maximum appropriations and are contingent upon the collection of sufficient revenues to meet and provide for such appropriations. It is the duty of the Governor, as chief budget officer, and the Comptroller to ensure that amounts appropriated and expended do not exceed available resources.

Pursuant to Chapter 216, Florida Statutes, annual appropriations are to be used to control: (1) authorized expenditures incurred during the current fiscal year; (2) encumbrances outstanding at year-end approved for liquidation in the subsequent year; and (3) legal, due, and unpaid obligations relating to prior year appropriations which have

EXHIBIT - H

lapsed. Budgetary information is integrated into the State's accounting system.

Except as noted below, actual data presented on exhibit C was determined in accordance with generally accepted accounting principles and includes authorized expenditures and other financing uses incurred during the fiscal year. As the budgetary basis of accounting described in Chapter 216, Florida Statutes, differs from the basis of accounting used to recognize and report revenues and expenditures in accordance with generally accepted accounting principles, the budgetary data presented in the Combined Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual has been adjusted to permit comparison with actual data.

To present budgeted expenditures and actual expenditures on a comparable basis, budgeted expenditures represent:

- Releases of 1982-83 appropriations approved for 1983-84 expenditures, and
- Releases of 1983-84 appropriations as reduced by amounts of outstanding encumbrances at June 30, 1984, for which expenditure authority was carried forward to the 1984-85 fiscal year as authorized by Section 216.301, Florida Statutes.

Adjustments to permit comparison of amounts authorized for expenditure with amounts appropriated are as follows (in thousands):

G. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of money are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General Fund, Special Revenue Funds, and State University System Funds. Encumbrances outstanding at year-end are reported as reservations of fund balances.

H. Cash and Cash Equivalents in Bank

In addition to demand and time deposits, the cash and cash equivalents classification includes short-term investments, such as certificates of deposit, repurchase agreements, and United States Treasury Bills. These investments are stated at cost, which approximates market. As required by State law, public depositories pledge collateral to secure State money on deposit.

I. Investments

Investments, other than fixed-income securities of the Pension Trust Funds, are valued at average cost or cost calculated using the first-in, first-out method. Fixed income securities of the Pension Trust Funds are valued at amortized cost.

J. Inventories

With the exception of the State University System, most inventories consist of expendable supplies although the inventories in most funds include small quantities of goods purchased for resale.

Methods of recording expenditures for inventories include both the consumption method and the purchases method, depending on the type of inventory and individual department accounting policy. Under the consumption method, inventories are recorded as expenditures when used or consumed. Under the purchases method, inventories are recorded as expenditures when purchased rather than when subsequently used.

Inventories accounted for using the purchases method are included on the combined balance sheet by recording an offsetting fund balance reserve for the value of such

EXHIBIT - H

inventories reported. The amount of the net increase in fund balances reserved for inventories at June 30, 1984, over June 30, 1983, is included in the adjustments to increase (decrease) beginning fund balances of the General Fund and Special Revenue Funds on exhibit B.

Significant inventory values are reported in the General Fund, Special Revenue Funds, proprietary fund types, and State University System Funds. Accounting methods, including valuation, vary for different inventories. The most common are described below:

General Fund

Most inventories of the General Fund are accounted for using the purchases method and are valued at either cost (using various costing methods) or lower of cost or market.

Special Revenue Funds

Most inventories of the Special Revenue Funds are valued at cost using various costing methods of determining cost.

Proprietary Fund Types

Inventories of proprietary fund types are expensed using the consumption method and are valued at either cost or the lower of cost or market, with cost determined using either the moving-average or last-invoice-price method.

State University System Funds

Inventories reported by the State University System consist of $1,996,130 of expendable supplies and $7,059,481 of goods for resale. Both categories of inventory are expensed when consumed. Most of the inventories are valued at cost using the last-invoice-price method of determining cost.

K. Fixed Assets and Depreciation

Expenditures for fixed assets acquired or constructed for general governmental purposes are reported in the governmental fund types and Expendable Trust Funds that financed the acquisition or construction, whereas the fixed assets so acquired are capitalized (recorded) at cost in the General Fixed Assets Account Group, except for public domain (infrastructure) general fixed assets which are generally not capitalized. General fixed assets are not depreciated.

Fixed assets acquired or constructed by proprietary fund types, Nonexpendable Trust Funds, and Pension Trust Funds are capitalized in the fund financing the acquisition or construction. They are recorded at cost and depreciated principally on a straight-line basis over useful lives ranging from 30 to 50 years for buildings and improvements and 3 to 10 years for machinery, equipment, and library resources. Revenue-producing toll facilities (roads and bridges) are recorded as improvements other than buildings in the amount of $1,097,079,637. They are considered to be inexhaustible assets and accordingly are not depreciated.

Generally, State University System fixed assets are stated at cost and are not depreciated.

Not included in reported fixed assets are the collections of the Florida State Museum at the University of Florida. The collections contain approximately 6,000,000 biological, archaeological, and ethnographic items. Although these collections are considered irreplaceable and quite valuable, the University has not assigned a dollar value to them.

L. Long-Term Debt

Long-term obligations that will be financed from resources to be received in the future by governmental fund types and Expendable Trust Funds are reported in the General Long-Term Debt Account Group, not in individual funds. Long-term obligations to be financed from proprietary fund types, Nonexpendable Trust Funds, Pension Trust Funds, and State University System Funds are recorded in the applicable funds rather than in the General Long-Term Debt Account Group.

M. Compensated Absences

Employees earn the right to be compensated during absences for vacation and sick leave. Within limits established by law or rule, unused leave benefits will be paid to employees upon separation from State service. In governmental fund types and Expendable Trust Funds, the cost of leave benefits is recognized when payments are made to employees; however, a long-term liability for unused vacation and vested sick leave benefits has been recorded in the General Long-Term Debt Account Group.

In proprietary fund types, Nonexpendable Trust Funds, and Pension Trust Funds, the cost of vacation and vested sick leave benefits is recognized (accrued) in the period they are earned, and the corresponding liability for payment of such obligations is recorded in the applicable fund rather than in the General Long-Term Debt Account Group. The long-term compensated absences liability of the State University System is recorded in the Unrestricted Current Funds with an offsetting amount to be provided from future appropriations.

In all funds and the account group, the compensated absences amounts are based on June 30, 1984, salary rates and include employer social security and pension contributions at current rates.

2. CASH WITH FISCAL AGENTS

Cash with fiscal agents as reported on the combined balance sheet for the Debt Service Funds, the proprietary fund types, and the fiduciary fund types relates to money transferred to fiscal agents for the payment of principal and interest on maturing bonds. This amount and the related liabilities are not reduced until the Florida State Board of Administration receives evidence from the fiscal agents that principal and interest payments have been made.

3. TAX REVENUE

Florida levies neither a personal income tax nor an ad valorem tax on real or tangible personal property. Taxes are, however, the principal means of financing State operations. A schedule of tax revenues by tax type is presented below (in thousands) with amounts shown net of refunds made during the year:

Totals	$10,972,437	$(9,237,653)	$381,624	$2,116,408

The amounts shown as eliminations include infrastructure fixed assets such as roads and bridges. The net additions and adjustments include additions and deletions to general fixed assets and adjustments to correct balances.

6. LAW ENFORCEMENT OFFICERS AND FIREFIGHTERS DEATH AND SURVIVOR BENEFITS

Florida self-insures for benefits provided under provision of State law for all State law enforcement officers and firefighters killed in the line of duty. A Special Revenue Fund has been established to administer payment of certain death and survivor benefits, and the Florida Department of Highway Safety and Motor Vehicles has reserved $60,000 of the fund balance of the General Fund to pay death benefits claims for Highway Patrol Officers.

7. RETIREMENT PLANS

Florida's retirement plans are administered by the Florida Department of Administration and consist of employee contributory and employee noncontributory plans that provide for retirement, death, and disability benefits to enrolled members.

STATE OF FLORIDA
NOTES TO FINANCIAL STATEMENTS
June 30, 1984

Contributions for the fiscal year ended June 30, 1984, totaled $790,728,910 of which $206,803,675 was State contributions and the remainder was from non-State agencies and employees.

Of the 410,030 active members in the various plans as of June 30, 1984, 404,600 (98.7 percent) were members of the Florida Retirement System. The System was created December 1, 1970, to provide a retirement and survivor benefit program for participating public employees. Social security coverage is also provided to all System members. Except for Legislators and elected county officials, membership in the Florida Retirement System is compulsory for all full-time and part-time employees working in established positions for a State department, county governmental unit, district school board, State university, community college, and participating city or special district. Legislators and elected county officials may elect to participate in the System.

Net assets available for benefits as of June 30, 1983, totaled $6,092,602,859. Section 112.63, Florida Statutes, requires the Florida Department of Administration to obtain actuarial reports on the Florida Retirement System prepared and certified by an enrolled actuary. The actuaries reported the following as of July 1, 1983 (in thousands):

Actuarial Present Value of Vested Benefits	$6,382,782
Actuarial Present Value of Nonvested Benefits	1,195,127
Total Benefits, Vested and Nonvested	$7,577,909
Net Assets, Actuarial Value	$6,511,446

An assumed average rate of return on investments of 9 percent underlies the actuarial computations.

Additional information about the Florida Retirement System and other State-administered retirement plans is contained in various publications available from the Florida Department of Administration.

8. CONSTRUCTION COMMITMENTS

The total estimated cost of construction projects in progress and supervised by the Florida Department of Transportation was not available. The balance remaining on these executory construction contracts totaled approximately

9. OTHER COMMITMENTS

Section 253.783, Florida Statutes, provides that upon the deauthorization of the Cross Florida Barge Canal Project by the United States Congress, the Florida Department of Natural Resources shall be authorized to operate and maintain existing lands and interests in lands not disposed of as surplus land and to refund to the counties of the Cross Florida Canal Navigation District their respective shares of the ad valorem taxes paid to the District including interest from the time such taxes were paid until repayment. As of June 30, 1984, the United States Congress had not deauthorized the Cross Florida Barge Canal Project. Liabilities which may arise from deauthorization approximate $32,800,000 at June 30, 1984. The estimated value of lands available for disposition upon deauthorization is $45,167,645 based on land appraisals as of February 1984.

10. BONDS PAYABLE

The various bond indentures providing for the issuance of bonds outstanding at June 30, 1984, contain a number of terms and conditions. Florida is in compliance with all significant terms and conditions.

Terms of revenue bond resolutions generally describe the disposition to be made of net revenues and provide for the establishment of sinking funds and reserve accounts and, in many instances, for the redemption or purchase of outstanding bonds with any money excess to that required for current debt service and reserve account maintenance.

At June 30, 1984, the reported liability for notes and bonds payable consists of the following obligations (in thousands):

Florida has refunded several bond issues. The proceeds of the refunding issues and, in certain instances, additional appropriated revenues have been placed in irrevocable trust accounts and invested in direct obligations of the Federal Government and obligations fully guaranteed by the Federal Government that, together with interest earned thereon, will provide amounts sufficient to meet future payments of principal and interest on the refunded issues. Refunded bonds defeased through the consummation of these refunding transactions are not included in Florida's outstanding long-term debt. Irrevocable escrow accounts held by the Florida State Board of Administration to service the refunded issues are reported in the Agency Funds.

Debt considered defeased consists of the following:

Florida State Board of Education, Higher Education Bonds, Series A through H, issued prior to July 1, 1975, were refunded in 1982 through the issuance of $147,850,000 State Board of Education Public Education Capital Outlay Bonds, Series 2, dated December 1, 1981. The principal balance defeased at June 30, 1984, was $279,365,000.

Florida State Fair Revenue Bonds, Series 1977, were refunded in 1979 through a $2,300,000 appropriation included in Chapter 79-212, Laws of Florida. The principal balance defeased at June 30, 1984, was $2,390,000.

Florida Department of General Services, Alachua County Road Bonds, issued in 1973 and 1976, were refunded in 1983 through the issuance of $8,500,000 Florida Department of General Services, Alachua County Road Bonds, dated May 1, 1983. The principal balance defeased at June 30, 1984, was $2,425,000.

Florida Development Commission, University System Improvement Revenue Bonds, issued in 1962, were refunded in 1982 by the Board of Regents through the use of resources other than proceeds of refunding bond issuances. The principal balance defeased at June 30, 1984, was $10,037,000.

Florida Department of General Services, University System Improvement Revenue Bonds, issued in 1971 and 1972, were refunded in 1982 through the issuance of $43,000,000 University System Improvement Revenue Certificates, Series A, dated January 1, 1982. The principal balance defeased at June 30, 1984, was $32,550,000.

12. CHANGES IN GENERAL LONG-TERM DEBT

Changes during the year in general long-term debt, other than for the liability for compensated absences, are summarized below (in thousands):

Description	Balance 7-1-83	Additions	Deletions	Balance 6-30-84
Bonds Payable	$2,995,506	$135,000	$486,496	$2,644,010

Other Long-Term Liabilities		26	20	6
Total	$3,004,460	$145,134	$490,265	$2,659,329

Included in the amounts reported as deletions are adjustments to recognize the defeasance of bonds reported as payable at June 30, 1983. Bonds which were defeased as of June 30, 1983, but which were included in the amount reported as Bonds Payable as of that date, totaled approximately $290 million.

The long-term liability for compensated absences at June 30, 1984, was determined in accordance with the provisions of National Council on Governmental Accounting (NCGA) Statement 4. The liability for compensated absences as reported at June 30, 1983, included only the liability of those State agencies which had elected to implement the provisions of NCGA Statement 4 prior to its July 1, 1983, effective date. Because of the substantial increase in the number of departments included in the reported liability for compensated absences at June 30, 1984, it was not practicable to determine the changes in the liability which occurred during the fiscal year ended June 30, 1984.

13. OPERATING LEASES

Florida has long-term commitments for assets leased under operating leases. These assets are not recorded on the combined balance sheet, and operating lease payments are recorded as expenditures or expenses of the related funds when paid or incurred. Future minimum lease commitments for noncancellable operating leases as of June 30, 1984, were as follows (in thousands):

Fiscal Year Ending June 30	Operating Lease Commitments
1985	$ 33,200

15. DISTRIBUTION OF CORRECTIONAL WORK PROGRAM ASSETS

In prior fiscal years, the financial position, the results of operations, and the changes in financial position for the Florida Department of Corrections' correctional work programs were reported as an Internal Service Fund. Pursuant to Chapter 946, Florida Statutes, and as of June 30, 1984, the Department had transferred responsibility for management of the various correctional work programs and leased buildings, land, furnishings, equipment, and other chattels used in the operation of each correctional work program to a private nonprofit corporation, Prison Rehabilitative Industries and Diversified Enterprises (d/b/a PRIDE, Inc.), organized under Section 946.01, Florida Statutes. The leases entered into during the fiscal year 1983-84 provided for a lease payment of $1 per year. The results of operations and changes in financial position relating to correctional work programs managed by the Department during the 1983-84 fiscal year and prior to the transfer to PRIDE, Inc., are reported in the accompanying financial statements as an Internal Service Fund.

The leases negotiated between the Department and PRIDE, Inc., transferred certain assets to the nonprofit corporation upon its assumption of program operations. During fiscal year 1983-84, the Florida Department of Corrections transferred assets (cash and inventories) totaling $6,836,553 to PRIDE, Inc. Remaining Internal Service Fund assets and liabilities were retained by the State of Florida, and at June 30, 1984, are reported in the Special Revenue Funds and the General Fixed Assets Account Group, as applicable. The above transactions resulted in the distribution of Correctional Work Program Trust Fund (an internal service fund) Contributed Capital totaling $31,894,586 and Retained Earnings totaling $3,933,821.

16. PRIOR PERIOD ADJUSTMENTS

Adjustments to July 1, 1983, fund balances and retained earnings represent reclassifications necessary to restate balances reported at June 30, 1983, in accordance with generally accepted accounting principles. The combined financial statements for the fiscal year ended June 30, 1983, represented the compilation of individual departmental statements as required by Section 216.102, Florida Statutes. However, those statements did not reflect reclassifications and eliminations necessary to present the State's financial position and results of operations in accordance with generally accepted accounting principles.

18. NONMONETARY TRANSACTIONS

The State of Florida received for its use donated food from the United States Department of Agriculture (USDA) Redistribution Program. The fair market value of food received, $5,322,000, was recorded as revenue of the receiving governmental funds. The State of Florida also distributes donated food as an agent for the USDA to other qualifying organizations outside the State reporting entity. The value of food received and distributed by the State of Florida as an agent for the USDA is not reported in the accompanying financial statements.

The Florida Department of Health and Rehabilitative Services administers the United States Department of Agriculture Food Stamp Program. Florida issued food stamps valued at $393,551,000 during fiscal year 1983-84 and had food stamps valued at $129,647,000 on hand as of June 30, 1984. The value of food stamps issued is not reported as an expenditure and the value of the food stamps on hand at June 30, 1984, is not reported on the combined balance sheet.

The Florida Department of Natural Resources exchanged land valued at $5,236,220 and $688,780 cash for land appraised at $5,925,000 on Lovers Key and Inner Key. The noncash portion of the exchange is not reported on the Combined Statement of Revenues, Expenditures, and Changes in Fund Balances.

State Attorneys and Public Defenders of the State of Florida are furnished office space and certain other services by counties under the provisions of Chapter 27, Florida Statutes. The value of these services is not reported on the Combined Statement of Revenues, Expenditures, and Changes in Fund Balances.

19. RELATED PARTY TRANSACTIONS

As permitted by Section 240.299, Florida Statutes, the State University System receives direct and indirect financial support from direct-support organizations situated on campuses. Transactions relating to these organizations are not included in State University System Funds. A summary of assets, liabilities, revenues, and expenditures of direct-support organizations for the last fiscal year reported is tabulated below (in thousands):

Assets	$161,402
Liabilities	$ 69,715
Revenues	$ 67,745
Expenditures	$ 51,884

20. FLORIDA NATIONAL GUARD COST-SHARING AGREEMENTS

The Federal Government and the State of Florida jointly operate the Florida National Guard which is composed of the Florida Army National Guard and the Florida Air National Guard.

The Florida Department of Military Affairs has cost-sharing agreements with the Federal Government for operation and maintenance of certain facilities of the Florida National Guard. The Army Service Funding Agreement provides for a Federal share of 75 percent and State share of 25 percent. The Air Operation and Maintenance Agreement provides for a Federal share of 80 percent and State share of 20 percent. Weekend training and annual training activities are 100-percent Federally funded.

In fiscal year 1983-84, the Florida Department of Military Affairs expended $8,738,052 on the program and the Federal Government expended approximately $91 million. The Federal investment in general fixed assets totaled approximately

$327 million at June 30, 1984. Neither the current expenditures of the Federal Government nor the Federal investment in general fixed assets are included in the amounts reported. These amounts are administered and controlled by the Federal Government.

21. LITIGATION

Because of its size and its broad range of activities, Florida is involved in a number of routine legal actions. Managers of the departments involved believe that the results of such litigation pending or anticipated at the date of these financial statements will not materially affect Florida's financial position. The more significant cases are as follows:

A. Jaffe v. Stephen L. Boyles, State Attorney, Seventh Judicial Circuit, et al., Case No. Civ. 84-379C, United States District Court for the Western District of New York.

The plaintiffs are seeking compensatory and punitive damages in the amount of $200,500,000 plus attorney's fees and costs. The State intends to vigorously defend the case. The nature of the claim is a civil rights suit for alleged violation of international law, Canadian law, United States law, New York law, Florida law, common law tort, abuse of process, malicious prosecution, and loss of consortium.

B. Hughlan Long v. State of Florida, Case No. TCA-82-1056, United States District Court, Northern District of Florida.

This case involves a challenge under Title VII of the Civil Rights Act of 1964, as amended, to the now discontinued practice of the Florida Retirement System (FRS) of using sex-distinct actuarial tables to calculate the monthly benefits payable to those retiring members electing joint and survivor options under the FRS. The case is a class action involving approximately 7,600 retirees who retired after 1972 and before August 1983. The potential range of loss is from zero to $100,000,000, depending upon the method of defining those class members potentially entitled to relief, the measure of that relief, and the treatment of various defenses by the Federal trial and appellate courts. The case is presently pending on motions by both sides to reconsider an order of the trial court granting partial summary judgment in favor of the plaintiff class as to liability and directing further steps toward defining the potential scope of relief. No opinion as to probable outcome can be expressed by legal counsel for a variety of reasons. Any judgment would be satisfied either from the FRS Pension Trust Fund or by appropriation from the Legislature.

C. Northeastern International Airline v. Department of Revenue; Delta Airlines v. Department of Revenue; Air Jamaica, et al., v. Department of Revenue; LACSA v. Department of Revenue; Eastern Air Lines v. Department of Revenue.

These cases concern Chapter 212, Part II, Florida Statutes, Tax on Sales of Motor and Special Fuels. The constitutionality of this tax was upheld in the Florida Supreme Court in 1984. The airlines have asked the United States Supreme Court to take jurisdiction. Jurisdictional statements have been filed by the airlines and the jurisdictional response of the Florida Department of Revenue will be filed in early 1985. No opinion has been expressed by legal counsel as to the outcome of the case. If the State of Florida prevails, additional annual assessments of $50,000,000 will be subject to collection.

22. GUARANTEES OF INDEBTEDNESS OF OTHERS

The Florida Guaranteed Student Loan Program, administered by the Florida Department of Education (FDOE), guarantees loans made to eligible students by financial institutions. At June 30, 1984, $754 million of student loans had been approved under the Program, and loans totaling $685 million had been made by financial institutions. The United States Department of Education participates in the Program as a reinsurer, and reimburses the FDOE for defaulted loans at rates of up to 100 percent based on the incidence of default. The current reimbursement rate is 90 percent. A potential liability exists for loans defaulted in excess of the Federal reimbursement. The amount of this potential liability is unknown.

The Florida Public Service Commission (FPSC) guarantees loans made by utility companies to customers who implement qualifying energy conservation measures. As of June 30, 1984, the FPSC had guaranteed outstanding loans totaling $2,227,000. The FPSC has the right to seek recovery from the borrower for any amount reimbursed to the utilities.

23. OTHER LOSS CONTINGENCIES

Florida participates in a number of Federally-assisted grant programs. These programs are subject to audits by the grantors or their representatives. Any disallowance as a result of these audits may become a liability of the State.

24. SELF-INSURANCE

Florida has established self-insurance programs for property, casualty, and medical professional liability losses and has established an employee health insurance program to pay medical claims of employees and covered dependents.

A summary of assets, liabilities, and fund equities of the self-insurance funds at June 30, 1984, is as follows (in thousands):

	Self-Insurance Funds		
	Property and Casualty	Medical Professional Liability	Employee Health
Total Assets	$36,564	$10,533	$39,833
Liabilities and Fund Equities:			
Unearned Premiums	$ 5,131	$ 30	$
Unpaid Claims	19,170	7,502	14,243
Other Liabilities	211	481	543
Fund Equities	12,052	2,520	25,047
Total Liabilities and Fund Equities	$36,564	$10,533	$39,833

These programs are described in more detail below:

A. Property and Casualty Self-Insurance Fund

The Property and Casualty Self-Insurance Fund is administered as an Internal Service Fund. Premium charges are recorded as expenditures or expenses by covered funds and as operating revenue by the self-insurance fund. Coverages include property, general liability, automobile liability, workers' compensation, and Federal civil rights actions. Property is self-insured for actual cash value; liability coverage is provided up to $100,000 per person and $200,000 per occurrence; workers' compensation is provided to comply with applicable law; and Federal civil rights action coverage is unlimited.

B. Medical Professional Liability Self-Insurance Funds

The Medical Professional Liability Self-Insurance Funds provide dental, medical, and veterinary medical professional liability; comprehensive general liability; and patient's property liability covering faculty, staff, and students engaged in dental, medical, and the veterinary medical programs at the University of Florida and the University of South Florida. The funds are administered as Auxiliary Funds and, accordingly, are reported within the State University System Unrestricted Current Funds. The program's retained risks range from $1,000 per occurrence for patient property losses to $250,000 per occurrence for professional liability up to an aggregate of $2,500,000 for all claims paid during a calendar year. Losses in excess of these individual and aggregate amounts, up to $30 million, are reinsured with commercial insurers.

C. Employee Health Insurance Fund

The Employee Health Insurance Fund is administered as an Expendable Trust Fund. Premium charges paid by funds are recorded as an expenditure or expense and premium receipts are recorded as revenue in the Employee Health Insurance Fund.

25. SUBSEQUENT EVENTS

Bonded debt issued subsequent to June 30, 1984, consisted of the following:

A. Between June 30, 1984, and February 6, 1985, the Florida Housing Finance Agency sold additional bonds totaling $360,270,000. The bonds mature in varying amounts during the period 1986 to 2016 and consist of the following (in thousands):
